Subject: RE: CW v. [REDACTED]

Hi Spencer,

I have cc'd Elisabeth O'Brien in the email and could probably better advise you on the process of resubmitting samples for full chemical analysis.

To the best of my knowledge, you would need to instruct the Boston DCU to re-submit the samples back to the Lab in a timely manner. And you would also need to provide a letter either with the sample or by fax to the lab, stating that a full chemical analysis needs to be done on the sample [REDACTED] and the reason/s.

Out of curiosity, what was the identification of the pill? Also, please understand while we may approve the re-testing of the sample, we may or may not have a standard available for the sample.

Hope this helps.

Hi Annie –

Hope you're doing well. Was wondering if its possible to test the drugs in this case? It's a pill case and the cert is based on Labeling and Appearance. Just let me know. Thanks!

-Spence
